Preliminary Program

Thursday 7th March

15:30	OPENING
16:00-17:30	Session 1. Non Invasive is a Reality? Moderators: <i>Marcos Messeguer - Yosu Franco</i> Can artificial Inteligence help to distinguish between euploids that lead to a live birth from those that don't? <i>Kathellen Miller</i> Non invasive genetic study. <i>Luis Navarro</i> Prediction of embryos and oocytes based on hyperspectral imaging and machine learning. <i>Samuel Ojosnegros</i>
17:00-17:30	Discussion
17:30-18:00	Coffe break
18:00-20:00	Session 2. Challenges and Controversies in ART Moderators: <i>Moisés Moreira - Silvia Iniesta - Elena Carrillo de Albornoz</i> Why the euploid embryo doesn't implant? <i>Danilo Cimadomo</i> What can clinicians do with only a single euploid embryo? We stick to the guidelines? <i>Joaquín Llacer</i> Scientific evidence versus clinical experience in ART. <i>Enrique Pérez de la Blanca</i> An experience perspective of clinical inmunology and ART. <i>Silvia Sánchez Ramón</i>
19:20-20:00	Discussion

Friday 8th March

09:00-10:30	Session 3. PGTA: What is New? Moderators: <i>Belén Lledo - Amelia Villa</i> The true potential of 1PN embryos. <i>Clare Ussher</i> The real value of high mosaicims. An update of the International Registry. <i>Francesca Spinella</i> Variability in Diagnosis Among Preimplantation Genetic Testing Laboratories. <i>Mina Popovic</i>
10:00-10:30	Discussion
10:30-11:00	Lecture The Maternal Fetal Risk After ART. Gemma Cassals Moderator: <i>Elena Melia</i>
11:00-11:30	Coffe break
11:30-14:00	Session 4. The Challenge of Implantation Moderators: <i>Luis Rodríguez Tabernero - Vega María Cabezuelo - Alejandra Rexarch</i> The role of chronic Endometritis and uterine microbiome in ART. <i>Ana Vegas</i> Adenomyosis: clinical management and outcomes in ART. <i>José Antonio Domínguez</i> Uterine factor and isthmocele in ART. <i>Beatriz Bueno</i> Refractory endometrium. Therapeutic alternatives. <i>Gorka Barrenetxea</i> New stimulation strategies to improve implantation rates. <i>Marta Devesa</i>
13:10-13:45	Discussion
13.45-15:00	lunch break
15:00-15:00	Session 5. Ovarian and Oocyte Rejuvenation Techniques Moderators: <i>Iván Ochando - Santiago Bau</i> New techniques. How to repair damage oocytes. <i>Sonia Herraiz</i> Clinics results in Rejuvenation. <i>Manuel Muñoz</i> How to repair poor quality oocytes. <i>Nuno Borges</i> Reproductive efficiency and immature oocytes. <i>María José Escriba</i>
16:20-17:00	Discussion
17:00-17:15	Closing session <i>Elena Carrillo de Albornoz - Yosu Franco</i>
